SUBJECT INDEX

Acetylcholine receptor
of muscle and thymus, 463
Adenosine deaminase activity
in PBM subpopulations, 303
Ageing
and immune system in Werner's syndrome, 10
E-RFC in, 399
Allogeneic suppression
in SLE, 27
Alternative pathway
in SLE, 495
Anaemia
autoimmune haemolytic, IgG in, 308
Anaphylactic vasopermeability mechanism
in Heymann's nephritis, 99
Anergy
in experimental arthritis, 441
Antibody
monoclonal, to seminal plasma Ag, 458
naturally occurring, to $F(ab')_2$, 378
to *M. leprae*, 107
Antibody response
in arthritis, 450
Antigens
circulating, in schistosomiasis, 219
Anti-immunoglobulin
augments ADCC, 127
Arthritis
Ab response in, 450
anergy in, 441
Aspergillosis
IgA antibodies in, 395
Aspergillus fumigatus
IgA antibody against, 395
Atopy
and IgE production, 579
Autoantibodies
liver membrane, in CAH, 263
Autoimmune diseases
and Gm allotypes, 20
Autoimmune response
following cryosurgery, 63

Bacteria
in study of hypogammaglobulinaemia, 530
B cells
bacterial mitogens for, 530
in hypogammaglobulinaemia, 535
Behçet's syndrome
lymphocytes in, 175
Berger's disease
IgA levels in, 247
Biliary antigens
in CIC, 95
Biosynthesis
and production of IgE, 167
B lymphocytes
increase in Graves' disease, 33
Bovine serum albumin
produces SICD, 255

C3b rosettes
and H1-receptor, 196
C3d
in schistosomiasis, 219
Calorie deficiency
thymic factor activity in, 332
Cancer
gastric, and FSA, 57
Candida albicans
phagocytosis and killing of, 226

Cell division
in Kupffer cell cultures, 67
Cell wall
streptococcal, and experimental arthritis, 441, 450
Cerebrospinal fluid
in MS, 345
Colony assay
T cell, and mononuclear cells, 156
Colony formation
of T cells, 152
Complement
in empyema, 506
inhibits immune precipitation, 387
Complement production
effect of histamine on, 515
Complexes
immune, *see* Immune complexes
Crohn's disease
NK cells in, 41
Cryosurgery
and autoimmune response, 63
Cyclomunine
immunomodulation by, 315
Cytotoxicity
antibody-dependent, cell-mediated, 121, 127, 136, 554
cellular, to measles virus, 136
spontaneous killer, enhancement of, 589

Deoxyguanosine
phosphorylation of, 523

Ecotaxopathy
in Hodgkin's disease, 186
Empyema
complement and Igs in, 506
E rosette-forming cells
in ageing, 399
Escherichia coli
induces glomerulonephritis, 77
Extraglomerular vessels
immune deposits in, 483

$F(ab')_2$
antibodies to, 378
Facteur thymique sérique (FTS)
in thymus, 470, 477
Factor B
in SLE, 495
Fcγ receptor
in glomerulonephritis, 490
Fc receptor
identifies T cells in MS CSF, 345
Foetal sulphoglycoprotein antigen (FSA)
purification of, 57
Foetus
CML activity in, 561

Giant cell formation
in Kupffer cell cultures, 67
Glomerulonephritis
CIC-like material in, 86
IC in, 490
IgA levels in, 247
induced by *E. coli*, 77

Gm allotypes
and autoimmune diseases, 20
Graves' disease
increase of B lymphocytes in, 33
Gut mucosa
cytotoxic T cells in, 273

Heavy chain
in myeloma, 545
Hepatitis
acute viral, immune response in, 436
chronic active, LMA in, 263
Heymann's nephritis
anaphylactic mechanism in, 99
IC during, 86
Histamine
and complement production, 515
enhances eosinophil C3b rosettes, 196
Hodgkin's disease
and ecotaxopathy, 186
H-Y antisera
examined by RIA, 597
Hypogammaglobulinaemia
B cells in, 535
lymphocyte function in, 530

IgA
in Berger's disease, 247
IgA antibody
against *A. fumigatus*, 395
IgE production
by PBMC, 167, 579
IgG
in myeloma and AIHA, 308
Immune complex deposition
in Heymann's nephritis, 99
Immune complex disease
immunization protocol using BSA, 255
Immune complexes
circulating, and extraglomerular vasculature, 483
in PBC, 95
during Heymann's nephritis, 86
during *P. berghei* infection, 403, 412
in glomerulonephritis, 490
in schistosomiasis, 219
Immune deficiency
T cell markers in, 355
Immune deposits
in extraglomerular vessels, 483
Immune function
in Lesch–Nyhan syndrome, 294
Immune phagocytosis
in malaria, 114
Immune precipitation
inhibited by complement, 387
Immune regulation
in IBD, 280
Immune response
cell-mediated, in arthritis, 441
in uraemia, 234
to RLSP in AH, 436
Immune system
in Werner's syndrome, 10
Immunity
to leishmaniasis, 211
to measles, 144

Immunoadsorption
of myeloma and autoimmune IgG, 308
Immunoglobulin production
allogeneic suppression of in SLE, 27
Immunoglobulin
in empyema, 506
monoclonal, deposited in myeloma, 545
Inflammatory bowel disease (IBD)
immune regulation in, 280

Kupffer cells
in long-term cultures, 67

Leishmaniasis
mechanisms of immunity to, 211
Leprosy
intra-uterine infection in, 107
suppressor cells in, 203
Lesch–Nyhan syndrome
immune function in, 294
Lesion
cell membrane, in ADCC, 554
cerebral, during malaria, 412
Leukaemia
and ADCC, 121
hairy cell, T lymphocytes in, 336
Light chain
in myeloma, 545
Liver-specific lipoprotein (LSP)
following cryosurgery, 63
Lymphocyte abnormalities
in Behçet's syndrome, 175
Lymphocyte affinity
for sheep erythrocytes, 399
Lymphocyte blastogenesis
in nephrotic syndrome, 241
Lymphocyte function
affected by cyclomunine, 315
Lympholysis
cell-mediated, in foetal blood, 561
Lysosomal neutral proteinase
in MS, 50

Malaria
DTH in, 421
immune phagocytosis in, 114
immunopathology of, 403, 412
immunosuppression in, 428
Measles
immunity to, 144
Measles virus
cellular cytotoxicity to, 136
Mitogen response
and T cell subsets, 571
Mononuclear cells
and T lymphocyte colonies, 156
Multiple sclerosis
and lysosomal proteinases, 50
cerebrospinal fluid in, 345
Mycobacterium leprae
RIA measures antibodies to, 107
Myeloma
heavy and light chains in, 545
immunoadsorption of IgG in, 308

Natural killer (NK) cells
in Crohn's disease, 41
influence of soluble factor on, 589
Nephrotic syndrome
lymphocyte blastogenesis in, 241
Nucleoside phosphorylase
in PBM subpopulations, 303
Nutrient deficiency
thymic factor activity in, 332

Oophoritis
T cells in, 324

Peripheral blood lymphocytes
transferrin receptors on, 285
Phagocytosis
of *C. albicans*, 226
Phosphorylation
of deoxyguanosine, 523
Plaque formation
and immune disorders, 162
Plasmodium berghei
immunopathology of its infection, 403, 412
immunosuppression in its infection, 428
Plasmodium chabaudi
DTH in its infection, 421
Plasmodium yoelii
and phagocytosis, 114
immunosuppression in its infection, 428
Primary biliary cirrhosis
CIC in, 95
Protein A plaque assay
detects Ab-secreting lymphocytes, 162
Protein secretion
in histamine-treated monocytes, 515
Purified protein derivative of tuberculin (PPD)
induces viral antibody production, 364
Purine nucleoside phosphorylase deficiency
and dGMP phosphorylation, 523
Pyridoxine deficiency
thymic factor activity in, 332

Rabbit liver-specific lipoprotein (RLSP)
immune response to, 436
Reorienting gradient zonal rotor
separates tonsillar cells, 370

Schistosoma mansoni
CIC in its infection, 219
Schistosomiasis
Ag, IC and C3d in, 219
Sex-determining gene
and H-Y antigen, 597
Sheep erythrocytes
lymphocyte affinity for, 399
Smooth muscle antibody (SMA)
following cryosurgery, 63
Soluble factor
enhances SK cytotoxicity, 589
Spermatozoa
antigens of, 458
Suppressor cell
in leprosy, 203
Suppressor cell function
in IBD, 280
of PBMC, 571

Systemic lupus erythematosus (SLE)
allogeneic suppression in, 27
alternative pathway in, 495

T cell
cytotoxic, in gut mucosa, 273
in oophoritis, 324
failure of suppressive activity, 1
T cell colonies
and mononuclear cells, 156
T cell deficiency
and dGMP phosphorylation, 523
T cell markers
in immune deficiency, 355
T cell subsets
and colony formation, 152
and mitogenic response, 571
in Hodgkin's disease, 186
in MS CSF, 345
T lymphocytes
in HCL, 336
Thymectomy
and experimental oophoritis, 324
Thymic factor activity
in nutrient deficiencies, 332
Thymic function
in NZB mice, 1
Thymosin fraction V
FTS in, 477
Thymus
acetylcholine receptor of, 463
FTS in, 470, 477
Tonsil
cells of, separated by zonal rotor, 370
Transferrin receptor mobility
of lymphocytes, 285

Uraemia
humoral immune responses in, 234

Viral antibody production
induced by PPD, 364
Vitamin A deficiency
thymic factor activity in, 332

Werner's syndrome
immune system and ageing, 10

Zinc deficiency
thymic factor activity in, 332
